TO: MFP Transition Coordinators and Supervisors
FROM: Lora McCurdy, MFP Project Director
DATE: January 18, 2013
SUBJECT: **TC Update 1/18/13 – Web Brower Recommendation and Flu Information**

Dear MFP Transition Coordinators and Supervisors,

Please see the following for some important MFP program updates:

MFP Web Application - Web Browser Recommendation

Recently some transition coordinators have reported difficulty submitting Disenrollment Form D. We believe this is caused by using a less compatible web browser. Remember, please use Internet Explorer when working with the MFP web application (Do not use Chrome or Firefox).

Flu Information

This year's flu strain hit earlier than expected and hit hard. There is a growing concern that we may have a flu epidemic. Boston has already declared a state of emergency due to this year's flu. For Illinois we are in the high-index (red) are of those who have contacted the flu.

Below is the website from the CDC that discusses this year's flu. Please consider utilizing the website as an important resource to provide you with information on flu this year. As you know, many of our MFP participants are at high-risk: persons with diabetes, COPD/asthma and older adults who may be more susceptible to the flu.

Thank you for your continued hard work in support of Pathways to Community Living, MFP!

Sincerely,

Lora McCurdy
MFP Project Director
